# ONE NATION UNDER GOD

A PATRIOTIC MUSICAL

RANDY VADER / JAY ROUSE / CAMP KIRKLAND / PRAISE GATHERING

**SPECIAL EFFECTS DESCRIPTIONS:**

**POWERPOINT SFX:** With the help of *PhotoShop*, we create "layered" effects that when played back in PowerPoint using fades and other transitions, appear to be changing or moving. These effects are editable by simply changing the transition speed or timing on the "Custom Animations" Palette in PowerPoint. Each Image can be used individually, if desired.

**AVI "ANIMATED" SFX:** With the help of *After Effects* Animation Software, we create animated SFX that, like video, use streaming technology. Moving, zooming, sparkling images seem to come alive! Uneditable timing. Requires Video-Streaming Software such as Media Player or QuickTime.
